We offer the best cars

► High-Quality

>Our workshop is designated top-grade by a government ministry. Our experienced maintenance staff at our workshop carry out final inspections of cars that are shipped to our customers around the world.

► Direct Purchasing System

>We have a purchasing center for used cars.

The biggest advantage of our center is that we meet car owners face to face, discussing car problems and accidents. This direct purchasing system enables quality analysis of used cars.

► Speedy and Safety

>A hundred employees at Oshima Car service Ltd..work together to acilitate business with you. A contact person will be appointed for you, enabling quick responses facilitate business.

► Guarantee the Mileage

>All of our used cars are protected by a mileage management system(like  Carfax).

We are one of the few exporters that have the authority to access the mileage management database. Through assuring the credibility of each car, we protect our cars from possible problems.

Japanese used cars provide value

• Inexpensive

Since people replace their cars quickly,used cars are widely available in large quantities.

• High-Quality

Most drivers take good care of their cars and tend to drive only short distances.

• Durable

Cars in Japan are required to undergo one of the toughest automobile safety inspections in the world, making them very well

How To Buy

In order to import a car from Japan, you need to be familiar with Japanese used car import procedures.
